

Features&Functions:

1. High-density steel cuts sharply and quickly The open shear head guide block design prevents damage caused by excessive shearing during shearing
2. Easy to use and comfortable to hold Humanized handle, easy to carry
3. Male connector + dust cap The connector adopts threaded ZG3/8"quick connector thread locking structure, which is compact
4. Can be used with pump The product is split type and needs to be used with a manual pump or electric pump.

Model	MCPC-85C	Output	60kn
Shear force	$\leq \Phi 85\text{mm}$	Total length	410mm
Long head opening	--	Net weight / gross weight	4.1kg/4.8kg
Package	carton packaging, corrugated carton outer packaging
